New Source Review newspaper advertisements for construction permit applications, October 30, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: October 28, October 29, or October 30, 2008. Public notices are generally published every two weeks. The previous publication of public notices was October 16, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Franklin Industrial Minerals</u> with a mailing address of <u>9020 Overlook Blvd</u>, <u>Suite 200</u>, <u>Brentwood</u>, <u>TN 37027</u>. They seek to obtain an air contaminant permit (Division identification number: <u>18-0007-00/62357</u>) for modification of a <u>limestone crushing</u>, <u>milling</u>, <u>screening</u>, <u>bagging</u>, and <u>loadout operation</u> located at <u>10583 Highway 70 East</u>, <u>Crab Orchard</u>, <u>TN 37723</u>. This existing operation consists of rock crushing and fine grinding systems, and associated equipment used to produce crushed limestone. Bag houses and wet suppression are used for pollution control. The requested modification is to increase throughput to 550 tons per hour in the rock crushing system and the addition of another roller and exhaust baghouse in the fine grinding system. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. D. Wright is the assigned Division person.

For the Cumberland County Crossville Chronicle -- published once on or before Thursday, October 30, 2008.

The applicant is <u>Superior Ready Mix, Inc.</u> with a mailing address of <u>P.O. Box 168, Rock Island, TN 38581</u>. They seek to obtain an air contaminant permit (Division identification number: <u>21-0065-01/62401</u>) to construct a <u>Concrete Batch Plant Operation at 469 Hwy. 53, South, Liberty, TN 37095</u>. This proposed operation consists of gravel and sand stockpiles, cement silo, a batch mixer, and associated equipment that are used to produce ready-mix concrete. Silo vent filters and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the DeKalb County Smithville Review -- published on or before Thursday, October 30, 2008

The applicant is <u>G.W. Wyatt Contracting</u> with a mailing address of <u>803 East Broadway Boulevard</u>, <u>Jefferson City</u>, <u>TN 37760</u>. They seek to obtain an air contaminant permit (Division identification number: <u>29-0058-01/62217</u>) for construction of an <u>Asphalt Batch Plant</u> located at <u>605 Cherokee Explosives Road</u>, <u>Rutledge</u>, <u>TN 37861</u>. This proposed operation would consist of equipment used to produce asphalt. Fuel oil would be used for fuel. Because of the amount and type of admissions, the use of pollution control equipment is not proposed. There

would be physical construction. Regulated air contaminants would be emitted by this source. Ms S. Shajikumar is the assigned Division person.

For the Hamblen County Citizen Tribune -- published once on or before Thursday, October 30, 2008.

The applicant is <u>Fleetwood Homes of Tennessee</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 700</u>, <u>Lafayette</u>, <u>TN 37083</u>. They seek to obtain air contaminant permits for construction, as follows:

- 1) Surface Coating operation (Division identification number (56-0057-01/61603) for operation of an airless and HVLP spray booth for coating chassis, ceiling panels, plywood, and wood trim for mobile home manufacturing located at 739 Hwy. 52 Bypass W., Lafayette, TN 37083. This new operation consists of one dry spray booth. Fabric filters are used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. R. Benjamin is the assigned Division person.
- 2) <u>Woodworking operation</u> (Division identification number: <u>56-0057-02/62066</u>) located at <u>739 Hwy. 52</u> <u>Bypass W., Lafayette, TN 37083</u>. This new operation includes cutting and planning equipment to mill framing and wood components for mobile home manufacturing. A dust collection system will be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the *Macon County Times* -- published once on or before Thursday, October 30, 2008.

The applicant is <u>Stanfield Brothers Paving</u> with a mailing address of <u>198 Anthony Drive</u>, <u>Calhoun</u>, <u>GA 30701</u>. They seek to obtain air contaminant permits for <u>modification of existing air contaminant sources</u> located at <u>658 Old</u> Federal Road, Oldfort, TN 37362, as follows:

- (1) <u>Asphalt Plant</u> (Division identification number: <u>70-0042-01/62412</u>). This existing operation consists of crushed rock and sand stockpiles, a batch type mixer, and associated equipment used to produce hot-mix asphalt. Number 2 fuel oil is used for fuel. A baghouse is used for pollution control. The requested modification is to repair and restart this asphalt plant that has not operated for the past several years. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.
- (2) <u>Generator</u> (Division identification number: <u>70-0042-02</u>). This existing operation consists of a diesel powered generator and associated equipment used to electric power. Diesel is used for fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. The requested modification is to repair and restart this generator that has not operated for the past several years. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the *Polk County News/Citizen Advance* -- published once on or before Thursday, October 30, 2008.

The applicant is Eastman Chemical Company with a mailing address of South Eastman Road, Kingsport, TN 37662. They seek to obtain an air contaminant permit (Division identification numbers: 82-1004-72 and -79 and 82-1005-66; permit log number 62409) for modification of a Plasticizer Production Operation at the same address. This existing operation consists of reactors, distillation units, storage tanks, and various separation/processing operations used to produce plasticizers. The requested modification is for the addition of a methanol recovery operation and the modification of existing tanks and piping. Control of volatile organic compound (VOC) and hazardous air pollutant (HAP) emissions would be assured by compliance with applicable Federal rules, including 40 CFR 60 (New Source Performance Standards) and 40 CFR 63 (National Emission Standards for Hazardous Air Pollutants for Source Categories). There would be physical Air Pollution Control
